EDUCATION	University of Washington Ph.D. in Economics M.A. in Economics University of Seoul M.A. in Economics B.A in Economics Shandong University Exchange Student	Seattle, WA Jun, 2026 (<i>Expected</i>) 2022 Seoul, South Korea 2020 2018 Weihai, China 2016
RESEARCH FIELDS	Applied Microeconomics, Health Economics, Development Economics, Gender, Climate Change, Labor Economics, Public economics	
JOB MARKET PAPER	Maternal Health Programs and the Continuation of Unintended Pregnancies (Scheduled presentations: ASSA 2026, SEA 2025) I examine unintended consequences of a Maternal and Child Health (MCH) program in rural India that offered cash incentives and health worker access to promote institutional delivery. Using a difference-in-differences design, I find the program reduced fertility among older women but increased the likelihood that younger women carried unintended pregnancies to term, mainly through greater exposure to community health workers, which altered fertility preferences and fostered more negative attitudes toward abortion.	
WORKING PAPERS	Hot Weather, Hot Tempers: the Impact of Heat Waves on Intimate Partner Violence in Peru Under Review (Scheduled presentations: ASSA 2026, SEA 2025) I examine the causal relationship between heat waves and intimate partner violence (IPV) in Peru, focusing on immediate responses to extreme temperature shocks. The analysis shows that heat waves increase IPV, with stronger effects in urban areas. Two mechanisms drive this pattern: worsening male mental health and intensifying community violence, which can normalize violent behavior and reinforce its acceptance. Farmers' Responses to Rainfall and Temperature Shock in Indonesia (with Hyelim Son and Xing Xia) (Scheduled presentations: APPAM 2025) This paper examines how Indonesian farmers respond to extreme temperature and rainfall shocks. Both shocks reduce household expenditure and lead to asset depletion. Low rainfall increases agricultural work and reduces non-agricultural work, especially among rice-farming men, while temperature shocks have smaller labor effects. The results suggest that households can better adapt to rainfall variability than to rising temperatures.	
WORK IN PROGRESS	Violence and Child Marriage in Northern Nigeria (with Isabelle Cohen) We examine how adolescent exposure to armed conflict influences marriage timing in Northern Nigeria. Using survey data from married girls aged 16–22 in Kaduna State and geocoded conflict events, we find that girls exposed to violence near typical marriage ages are more likely to marry early and have less schooling. Conflict exposure also increases early fertility and the likelihood of polygynous unions, underscoring how localized violence can alter life-cycle decisions.	

RESEARCH EXPERIENCE	Research Assistant for Professor Isabelle Cohen <i>Research focus: Experimental Study on Safe Spaces for Married Adolescents in Northern Nigeria</i>	Seattle, Wa 6/2024–8/2024
	• Assisted with data cleaning and processing • Developed code for Lee Bounds estimation • Implemented Lasso regression for variable selection	
	Research Assistant for Professor Seungmoon Choi <i>Research focus: The Impact of the Fourth Industrial Revolution on the Labor Market and the Economy</i>	Seoul, South Korea 7/2019–8/2020
	• Literature review • Data collection to construct a panel data • Data cleaning and Regression	
TEACHING EXPERIENCE	Instructor of Record, University of Washington Bothell <i>B-BUS 220 Introduction to Microeconomics</i>	Winter 25, Spring 25, Fall 25
	• Average course evaluation: 4.3/5	
	Instructor of Record, University of Washington <i>ECON 201 Introduction to Macroeconomics</i>	Winter 22
	• Average course evaluation: 4.7/5	
	Instructor of Record, University of Washington <i>ECON 200 Introduction to Microeconomics</i>	Summer 22, Fall 22, Winter 23, Fall 24
	• Average course evaluation: 3.9/5	
	Teaching Assistant, University of Washington <i>ECON 602 Teaching Introductory Economics</i>	Fall 24
	Teaching Assistant, University of Washington <i>ECON 200 Introduction to Microeconomics</i>	Winter 21 – Fall 23, Spring 24
	• Average course evaluation: 4.5/5	
PRESENTATIONS	2026 The Allied Social Science Associations meeting (Philadelphia, PA) (scheduled)	
	2025 Southern Economic Association (Tampa, FL) (scheduled)	
	North West Development Workshop (Reed College)	
	Labor and Development Brownbag (University of Washington)	
	The Political Economy Forum (University of Washington)	
	2024 Labor and Development Brownbag (University of Washington)	
	2023 Labor and Development Brownbag (University of Washington)	
AWARDS/ HONORS	Rachel M. Storer Award in Labor Economics, University of Washington	2025
	Graduate School Conference Presentation Award, University of Washington	2025
	James K. & Viola M. Hall Fellowship, University of Washington	2019
	Seoul Mayor's Scholarship, University of Seoul	2015, 2018
SKILLS	Programming: STATA, R, ArcGIS, Matlab, $\text{\LaTeX}$ Languages: Korean [native], English [fluent], Mandarin, Japanese	

GRADUATE
COURSEWORK

- | | |
|---|--|
| ☐ Econometric Theory | ☐ Experimental Economics |
| ☐ Applied Microeconometrics | ☐ Social Networks |
| ☐ Nonparametric and Semi-parametric Econometrics | ☐ Auction Theory |
| ☐ Topics in Development Economics | ☐ Industrial organization |
| | ☐ Microeconomics of Development |
